-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 24 November 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

**DETAILED ACTION**

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1732, Examiner Leo Tentoni.

***Priority***

2. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/626,431, filed on 27 July 2000.

***Specification***

3. The disclosure is objected to because of the following informalities: The status of the parent applications (on page 1) should be updated.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the

Art Unit: 1732

invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Owens (U.S. Patent 5,321,069 A).

Owens (see the entire document, in particular, col. 3, lines 35-47; Examples) teach a process of making a luminescent fiber as claimed.

6. Claim 18 is rejected under 35 U.S.C. 102(e) as being anticipated by Schrell et al (U.S. Patent 5,770,110 A).

Schrell et al (see the entire document, in particular, col. 1, lines 4-5; col. 1, line 45 to col. 2, line 47; Examples) teach a process of making a luminescent fiber as claimed.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various

Art Unit: 1732

claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary.

Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

9. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Owens et al (U.S. Patent 5,321,069 A).

Owens (see the entire document, in particular, col. 3, lines 35-47; Examples) teach a process of making a luminescent fiber as claimed, except that Owens does not explicitly teach viscose, which would have been obvious to one of ordinary skill in the art at the time the invention was made in the process of Owens principally because Owens teaches that other polymeric materials may be used in the process (col. 7, lines 50-57).

10. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Schrell et al (U.S. Patent 5,770,110 A).

Schrell et al (see the entire document, in particular, col. 1, lines 4-5; col. 1, line 45 to col. 2, line 47; Examples) teach a process of making a luminescent fiber as claimed, except that Schrell et al do not explicitly teach an average particle

Art Unit: 1732

size range of from about 5 microns to about 20 microns, which would have been obvious to one of ordinary skill in the art at the time the invention was made in the process of Schrell et al principally in order to produce a fiber having desired characteristics and/or properties (e.g., strength).

### **Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leo B. Tentoni whose telephone number is (571) 272-1209. The examiner can normally be reached on Monday - Friday (6:30 A.M. - 3:00 P.M.).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on (571) 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
